15 Top Tourist Attractions in Sri Lanka

1.Temple of the Tooth

Sri Lanka is truly spellbinding and will suit any traveler's interests with its top tourist attractions. The small island nation is chock-full of adventure activities like surfing and trekking. There are several highly religious sites for the religious devotee, and unbelievable historical tourist attractions for history buffs in Sri Lanka. However, no one can dispute Sri Lanka's incredible natural beauty. Whether it be en-route to a perfect surf break, visiting a historical site or on a pilgrimage, lush greenery and exotic animals are never far away

2.Adam's Peak

At the summit of Adam's Peak is a footprint cast in stone. It has spiritual significance to a number of different religions, however, there is currently a Buddhist monastery at the summit. To the Buddhists, the footprint is that of Buddha's; to Christians, the footprint is Adam's; and to Hindus, the footprint is attributed to Shiva. The site is a popular place of pilgrimage, especially on full moon nights. The trek to the top of the mountain to see the footprint is via a steep staircase containing over 5000 steps. The trail is lined with many tea stalls and food shops which act as places of rest. Most people begin their hike at 2.30 am to reach the summit in time for sunrise.

3.Galle Fort

It is easy to get lost in the cobblestoned alleyways and streets within Galle Fort. Today the area is full of modern restaurants, hotels, clothing, and souvenir shops. Meanwhile, snake charmers and buskers line

3.Galle Fort

It is easy to get lost in the cobblestoned alleyways and streets within Galle Fort. Today the area is full of modern restaurants, hotels, clothing, and souvenir shops. Meanwhile, snake charmers and buskers line the seawall. However, the fort was not always such a cosmopolitan spot. A basic fort was constructed by the Portuguese when they made their first landing to the island in 1505. When the Dutch eventually seized control of Galle, they made a number of improvements; including the enormous sea wall that still lines the fort. Galle Fort is an excellent example of what the synthesis between European and Asian architecture looks like.

4.Yala National Park

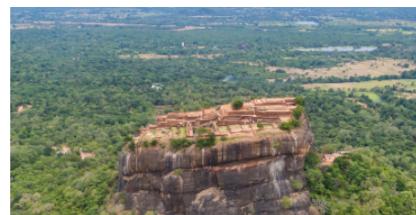

Yala National Park is made up of spellbinding vistas and a true abundance of Sri Lankan wildlife. It has the highest density of leopards in the world, so chances of seeing them are very high. Although leopards are the main attraction here, they are followed closely by elephants, sloth bears and crocodiles. The park is divided into five blocks; some of which were zoned to hunters until Yala became a national park in 1938. Ensure you make time to visit the very informative visitor center at the entrance of the park for insightful displays about the area.

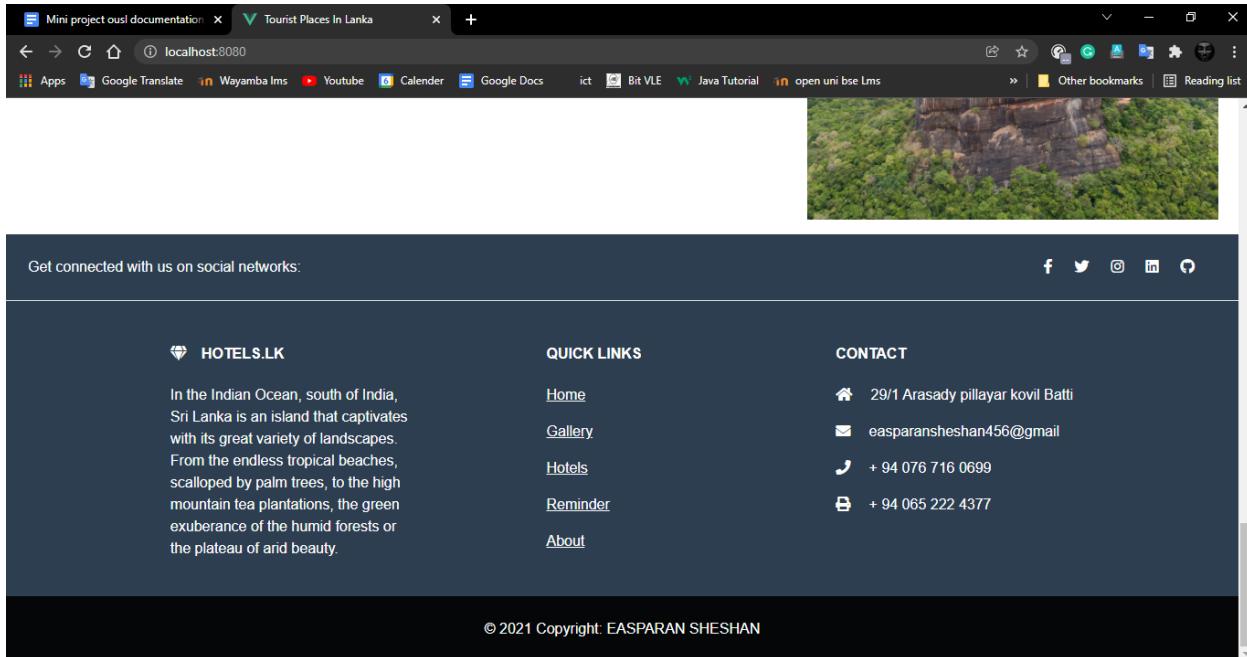

the highest density of leopards in the world, so chances of seeing them are very high. Although leopards are the main attraction here, they are followed closely by elephants, sloth bears and crocodiles. The park is divided into five blocks; some of which were zoned to hunters until Yala became a national park in 1938. Ensure you make time to visit the very informative visitor center at the entrance of the park for insightful displays about the area.

5.Sigiriya Rock Fort

Sigiriya Rock Fort is utterly impressive. The rock walls rise up 200 meters from the ground, only to give way to a flat plateau at their summit. There are steep stairwells to reach the top and many frescos to marvel at on the way up. At the top, you can find the remains of an ancient civilization, including relics of a palace and monastery. It would have taken true engineering ingenuity to build a structure at this height so many centuries ago. Around the rock fort are many important caves and gardens; impressively, they are some of the first landscaped gardens in the world.

- I have 5 pages in my website
 - Home
 - Gallery
 - Hotels
 - Reminder(To-Do-List)
 - About

Home

- Home page contains basic details of best tourist places in srilanka.
- Images will align left and right.
- Navigation bar located in the top of the page & every page contains navigation bar.
- Footer session located in the bottom of the page and it's contains
